Public debt,	1,778,629 24
Making the total estimated expenditure of the year 1823,	- - - - - \$15,317,407 04
And, leaving in the Treasury, on the 1st January, 1824, an estimated balance of	- - - - - \$9,364,055 77

After deducting from this sum certain balances of appropriations, amounting to \$2,897,086 47, which are necessary to effect the objects for which they were severally made, or have been deducted from the estimates for the service of the ensuing year, a balance of \$6,466,969 30 remains; which, with the receipts into the Treasury during the year 1824, constitutes the means for defraying the current service of that year.

## 2. OF THE PUBLIC DEBT.

The funded debt, which was contracted before the year 1812, and which was unredeemed on the 1st day of October, 1822, amounted, (see statement No. 1.) to \$ 17,189,852 60

And that which was contracted subsequently to the 1st of January, 1812, and was unredeemed on the 1st of October, 1822, amounted, (statement 1) to

75,852,848 58

Making the total amount of funded debt, unredeemed on the 1st of October, 1822, \$93,042,701 18

In the fourth quarter of that year, there was paid the sum of 2,265,673 32

Viz.

Reimbursement of six per cent. deferred stock, 265,673 32

Redemption of six per cent. stock, of 1820, 2,000,000 00

Reducing the funded debt on the 1st of January, 1823, (statement 2) to 90 777,027 86

From that day to the 1st of October last, there was added to the debt—

In three per cent. stock, 132 39

Treasury note six per cent. stock, 1,561 87

Treasury note seven per ct. stock, 135 00

1,829 26

Making an aggregate of 90,778,857 12

During the same period, there was paid, in reimbursement of the deferred six per cent. stock, 327,022 88

Reducing the funded debt, on the 1st of October, 1823, (statement 3) to 90,451,834 24

Since that day, there has been added, in Treasury note six per cent. stock, 716 75

Making an aggregate of 90,452,550 99

It is estimated that the reimbursement of deferred stock, in the fourth quarter of the present year, will amount to 274,588 85

Which will reduce the funded debt, unredeemed on the 1st of January, 1824, to \$ 90,177,962 14

The amount of Treasury notes, outstanding on the 1st of October, 1823, is estimated (No. 4) at \$ 26,122 00

And the amount of Mississippi stock unredeemed on that day, (statement 5,) at \$ 21,258 87

### sd. OF THE ESTIMATE OF THE PUBLIC REVENUE AND EXPENDITURE FOR THE YEAR 1824.

It will be perceived, that the actual receipts of the year 1823, agree, substantially, with the estimate presented in the last annual report. The only deficiency is in the proceeds of the public lands;

and that is understood to have been the consequence of an expectation, generally entertained, that the lands which were relinquished under the act of the 2d of March, 1821, and which are supposed to present the strongest inducements to purchasers, would be brought into market early in the ensuing year; with respect to the customs, however, the anticipations that had been formed, both as to the circumstances which were calculated to have an influence upon their productiveness, and as to the results, have been completely realized. It is believed, therefore, that data founded upon the same principles as those which governed in forming the estimate for the year 1823, may be satisfactorily presented as the basis of an estimate for the year 1824. With this view, the Secretary has the honor to state:

1st, That the gross amount of duties on imports and tonnage, which accrued from the 1st of January to the 30th September last, inclusive, is estimated at \$17,800,000; and that of the whole year at \$21,000,000. Of this sum, that portion which accrued in the first half of the year, is about \$1,000,000 less than that of the same period in the preceding year; and that which accrued in the three first quarters of the year, is estimated at \$1,700,000 less than that of the corresponding quarters of the preceding year.

2d, That the debentures issued during the three first quarters of the year 1823, amounted to \$3,412,000; which exceeds the amount issued during the corresponding period of the year 1822, by \$1,500,000; and the amount of debentures outstanding on the 30th of September last, and chargeable upon the revenue of 1824, was \$1,405,000; which is \$500,000 more than was, on the same day, in 1822, chargeable upon the revenue of 1823.

3d, That the value of domestic articles exported from the United States, in the year ending on the 30th of September last, amounted to \$47,155,711; being \$2,718,368 less than those exported in the year preceding; and the value of foreign articles exported in the year ending on the 30th September last, was \$27,530,469; being \$5,244,267 more than those exported in the preceding year.

4th, That the aggregate value of the imports into the United States, during the year ending on the 30th September last, is estimated at \$77,486,432; which is less, by \$5,755,109, than those imported in the preceding year.

5th, That the amount of custom house bonds, in suit, which, on the 30th of September, 1820, was \$ 3,130,000, was, on the same day, in the year 1822, \$2,795,000, and in the year 1823, \$2,817,000; whence it appears, that, although a reduction of \$313,000, had taken place during the whole period, yet the amount in suit on the 30th of September last, was greater, by \$22,000, than on the same day of the year preceding.

Upon a consideration of all these facts, and the conclusions deducible from them, the receipts from the customs, in the year 1824, may be estimated at \$16,500,000.

A considerable portion of the lands relinquished under the act of the 2d of March, 1821, will be brought into market in the ensuing

year: but, as it is yet uncertain to what extent this may be deemed advisable, and as the sale of these lands will probably absorb a great portion of the means of those who are prepared to make investments in the public lands, it is considered prudent not to estimate the receipts from this source of revenue at more than \$1,600,000; although it is believed, that they will exceed that sum.

Under these circumstances, the receipts of the year 1824 may be estimated as follows:

Customs	-	-	\$ 16,500,000
Public Lands	-	-	1,600,000
Bank Dividends	-	-	350,000
Incidental Receipts, including Arrears of Internal Duties and Direct Tax	-	-	50,000
Repayments of advances made in the War Department for services or supplies prior to July 1, 1816	-	-	50,000
			<hr/>
Making together			\$ 18,550,000 00
To which is to be added the sum of remaining in the Treasury, af- ter satisfying all the appro- priations chargeable upon the means of 1823; which makes the entire means of the year 1824 amount to			6,466,969 30
			<hr/>
The expenditures of the year 1824, are estimated as follows:			\$ 25,016,969 30
Civil, Diplomatic, and Miscel- laneous	-	-	\$ 1,814,057 23
Military service, including For- tifications, Ordnance, Indian Department, Revolutionary and Military Pensions, arming the Militia, and arrearages prior to 1st January, 1817,	-	-	5,122,268 15
Naval service, including the gra- dual increase of the Navy	-	-	2,973,927 51
Public Debt	-	-	5,314,000 00
			<hr/>
Making an aggregate of which, being deducted from the estimated means of 1824, will leave in the Treasury, on the 1st January 1825, after satisfy- ing the current demands of the year 1824, a balance, estimat- ed at			15,224,252 89
			<hr/>
			\$ 9,792,716 41

Under the existing laws, there is no probability that any portion of the balance remaining in the Treasury on the 1st of January, 1824, or of the surplus which may accrue during that year, can be applied to the discharge of the public debt, until the 1st of January, 1825. Yet, it is not deemed conducive to the general prosperity of the nation, that so large an amount should be drawn from the hands of individuals, and suffered to lie inactive in the vaults of the Banks. On the other hand, the high rate of interest of the great amount of debt which becomes redeemable on the 1st of January, 1825, renders it inexpedient for the Government to apply to other objects any portion of the means which it may possess of making so advantageous a reimbursement. It is believed, however, that every inconvenience may be obviated, if authority be given for the purchase of the seven per cent. stock, amounting to \$8,610,000, during the year 1824, at such rates as may be consistent with the public interest. As it is now certain that the Government will possess ample means to redeem that stock on the 1st of January, 1825, it is presumed that the holders will be willing to dispose of it, during the interval, at a fair price; and, as a gradual conversion of it into money, at such times and in such portions as would be most favorable to its reinvestment, would be most advantageous to the moneyed transactions of the community, it is presumed that it would be most acceptable to the holders.

It is, therefore, respectfully proposed, that the Commissioners of the Sinking Fund be authorized to purchase the seven per cent. stock, during the ensuing year, at the following rates above the principal sum purchased:

1. For all stock purchased before the 1st of April next, at a rate not exceeding \$1 25 on every \$100, in addition to the interest due on such stock on that day.

2. For all stock purchased between the 1st of April and the 1st of July next, at a rate not exceeding 75 cents on every \$100, in addition to the interest due on the last mentioned day.

3. For all stock purchased between the 1st of July and the 1st of October next, at a rate not exceeding, on every \$100, the amount of the interest which would have accrued on the last mentioned day.

4. For all stock purchased between the 1st of October, 1824, and the 1st January, 1825, the principal and interest due on the day of purchase.

In proposing to the consideration of Congress this application of the surplus means of the years 1823 and 1824, the probable demands upon the Government, in providing for the awards of the commissioners under the treaty with Spain, of the 22d February, 1819, have not been overlooked. It is believed, however, that funds may be advantageously supplied for the discharge of those claims, by the issue and sale, at not less than par, of five per cent. stock, redeemable in 1832; and it is respectfully proposed that authority be given for that purpose.

Of the \$10,331,000 of six per cent. stock, redeemable in 1825, about \$5,000,000 will probably be redeemed in that year; and there will

remain unredeemed, after the application of all the means at the disposal of the Commissioners of the Sinking Fund, about \$5,331,000. This sum, it is believed, may be readily exchanged for five per cent. stock, redeemable in 1833: and it is respectfully suggested that provision be made by law, for such an exchange of so much of the six per cent. stock as shall not be redeemed during the year 1825.

The views which are herein presented, are founded upon the idea, that no extraordinary expenditure is to be incurred. If, however, it be deemed advisable to give increased extension or activity to the Navy, or to aid in objects of internal improvement, it is believed that such additional means as may be required, may be obtained by a judicious revision of the tariff. Such a measure was recommended in the last annual report, with a view both to the increase of the revenue and the simplification of its collection; and further reflection and experience have tended to strengthen the opinion then entertained, that its operation, without being onerous to the community, would be advantageous to the revenue, salutary to commerce, and beneficial to the manufactures of the country.

All which is respectfully submitted.

WM. H. CRAWFORD.
